PROFESSIONAL SUMMARY

Master of Computer Applications (MCA) graduate with strong knowledge of Python programming, MySQL, and web technologies. Skilled in developing database-driven applications using Python, HTML, CSS, JavaScript, MySQL, Django, RestApi. Currently learning Python Full Stack Development and enhancing problem-solving abilities. Seeking an opportunity to start my career as a Python Developer and contribute to innovative software solutions.

PROJECTS

1. AI-Powered College Visitor Chatbot

Tools : Python, Streamlit , NLP (NLTK) , Speech Recognition ,
Text-to-Speech(pytsx3)

Description:

Built an AI chatbot to answer user queries using Natural Language Processing (NLP) and voice interaction. The chatbot automates responses to common queries, improving user experience through real-time processing and fast, accurate communication.

Responsibilities:

- . Developed the chatbot using Python and NLP.
- . Implemented speech-to-text and text-to-speech features.
- . Designed the user interface for real-time interaction.
- . Handled user queries using an intent-based response system.

2. Vegetable Store Management Systems

Tools: PYTHON , MYSQL

Description:

Developed a database-driven Vegetable Store Management System using Python and MySQL to manage inventory, customer data, cart operations, and billing. Implemented role-based functionality for owner and user with real-time stock updates and sales tracking

Responsibilities:

- Designed inventory management system using MySQL (add, update, delete items)
 - Implemented cart functionality for adding, modifying, and removing products
 - Developed billing system with automatic stock deduction after purchase
 - Stored customer visit details using database tables
 - Generated item-wise and total revenue reports using SQL queries
 - Implemented role-based access (Owner & User modules)
-

Technical Skills:

- **Programming Language:** Python
 - **Database:** MySQL
 - **Web Technologies:** HTML, CSS, JAVASCRIPT
 - **Frameworks :** Django
 - **Version Control :** Git, GitHub
 - **Tools:** VS Code
-
